Dear Sir

Further to my submission in relation to the development of the Hilling and Massey's Wood I would like to add —

I have lived here at Woodtown Park since I was born in 1941. I remember how much I loved this area — and still do. I am very disturbed by what could happen in this developed area if we go ahead. I agree the car stand be enlarged — but there is enough room to enlarge the existing part. There is a good cafe at Turbotown. The roads are a big concern. They can't take the extra traffic. And cyclists are a problem. Don't ignore them. The wild life should be encouraged. Trees are more important than buildings. People want to walk and enjoy. Not in buses. The area is

is lot more excavating to be done. This  
is our heritage —

The stewards house could be used. It is in  
keeping with the area. Make use of it.

I can't see how the so-called 'management  
plan' could not do anything but destroy the  
landscape. There is a small hillside (mountain!)  
overlooking our city. Keep it green and forested  
and give the wildlife a ~~place~~ place to live & be  
enjoyed by the people.

I reject the plan —

Gibbie Clarke
